

BCOE BOURNS COLLEGE OF ENGINEERING SELF-GUIDED TOUR

VISIT THE BUILDINGS, FACILITIES AND OTHER CAMPUS LANDMARKS ASSOCIATED WITH THE BOURNS COLLEGE OF ENGINEERING.

1 GETTING STARTED – Go west (right) from the steps of the **Student Services Building** towards **Hinderaker Hall**. Then go right towards Canyon Crest Drive, between the **Arts Building** and the **CHASS Interdisciplinary Building**.

2 NORTH CAMPUS DRIVE – Go east (right) on North Campus Drive. On your left, you'll see **athletic fields (softball, soccer and track)**, and, beyond the fields, the **Student Recreation Center** – the home venues for several Highlander teams ("Take Pride in R'Side!").

BOURNS COLLEGE OF ENGINEERING

Just ahead, in these beautiful, modern facilities the future is taking shape. In less than 20 years the college has advanced to a top 40 public engineering powerhouse. In its labs you will find faculty and even undergraduate students solving problems from the global to the molecular scales.

3 MATERIALS SCIENCE AND ENGINEERING

Scheduled for completion in 2009-10, the **MS&E Building** will be the first major building at UCR devoted to nanotechnology research. In collaboration with CNAS, this building will house the Bioengineering and Materials Science and Engineering Programs.

4 ENGINEERING UNIT 2 – Continue along North Campus Drive and you will find the two main buildings that make up the **Bourns College of Engineering (BCOE): Bourns Hall and Engineering Unit 2**.

Take a right before Engineering Unit 2 and then another right at the top of the steps. You will notice to the right the **Engineering Honor Society, Tau Beta Pi, monument** signifying the role of

engineering excellence in building America. Engineering Unit 2 houses the Department of Computer Science and Engineering which offers the majors of Business Informatics, Computer Engineering, and Computer Science. The Department of Electrical Engineering is also housed in this building. With its extensive research partnerships (DuPont, Ford, Honda, Honeywell), world-renowned faculty, state-of-the-art facilities, and an emphasis on undergraduate research, the **Bourns College of Engineering** provides exciting opportunities for highly motivated students.

5 BOURNS HALL – Walk west away from **Engineering Unit 2**

through **Bourns Hall**. Founded in 1989, the **College of Engineering** continues to grow and distinguish itself among the state's finest engineering schools. **Bourns Hall A wing**, on the right, houses the Departments of Bioengineering,

Chemical and Environmental Engineering, and Mechanical Engineering. On the left, **Bourns Hall B wing**, features 24-hour student computer labs and faculty research labs.

6 7 CARILLON MALL – As you exit the **Bourns Hall** area, take a left and head towards the center of campus. On your right, you'll see the **UCR Campus Store**. Continue straight ahead towards UCR's most identifiable landmark, the **Bell Tower**. On your right, you will see the **new Highlander**

Union Building (HUB). Beyond the Bell Tower is **Rivera Library**. Just before the Bell Tower, take a right on the path and head west towards the **HUB** – the perfect place to end your tour with a meal or refreshment.

Or continue on to the **Student Services Building** – the place where our journey began.

1 STUDENT SERVICES BUILDING (SSB) – Houses the offices of admissions, financial aid, the cashier, the registrar, undergraduate recruitment, and campus tours. It also includes the convenient **Highlander One-Stop Shop (HOSS)**.

This completes your Bourns College campus tour. Feel free to wander around the rest of the campus, take a full campus tour, and learn fun facts about UCR and its facilities.
